Coaching
Evaluating Performance
Hiring and Managing a Diverse Workforce

Chapter 1: Historical Perspective and Current Trends

Multiple Choice

Identify the choice that best completes the statement or answers the question.

- _____ 1. The nursing student predominantly uses knowledge about the history of nursing for which purpose?

1.	To understand the professional choices open to the student
2.	To prevent making medication errors in practice
3.	To determine in which geographical area it is best to practice
4.	To reduce the cost of delivering quality health care

ANS: 1

Page: 2

	Feedback
1	Understanding nursing history helps the nurse to better recognize the many choices available when choosing his or her own future path.
2	Understanding nursing history does not prevent medication errors in practice.
3	Understanding nursing history does not determine which geographical area is the best place in which to practice.
4	Understanding nursing history does not reduce the cost of delivering quality health care.

NURSYTESTS.COM

- _____ 2. The nurse is working in an underdeveloped country and observes the natives lighting ritual fires and pounding on primitive drums around the sick person to promote recovery. The nurse interprets this behavior as indicating the natives believe illness results from which items?

1.	Pathogens and genetics
2.	Evil spirits
3.	Tides and planets
4.	Plants and animals

ANS: 2

Page: 2

	Feedback
1	The belief that disease was caused by pathogens and genetics would not result in lighting fires or candles and making loud noises to ward off spirits.
2	A belief that disease was caused by evil spirits would result in lighting fires or candles and making loud noises to try to ward off the spirits.
3	The belief that disease was caused by tides and planets would not result in lighting fires or candles and making loud noises to ward off spirits.
